

## Why Juniata?

Juniata is a **nationally ranked college**, characterized by its strong and supportive community. Expect **one-on-one attention** from professors and access to facilities that will provide you with the experience to successfully enter exciting careers and highly selective graduate and professional schools.

## The Juniata Advantage

- **Recognized Distinction:** Juniata's educational programs have earned recognition for many decades from organizations including *U.S. News & World Report*, *Colleges That Change Lives*, *Forbes.com*, *Kiplinger's*, *The Fiske Guide to Colleges*, *Barron's Best Buys in Education*, and *The Princeton Review*. In 2012, the National Association of International Educators recognized our comprehensive campus internationalization.
- **Liberal Arts:** Interdisciplinary study—studying many subjects in the sciences, humanities, arts, and social sciences—is the core of the liberal arts. At Juniata, you can study many subjects to **enhance your mind** while also exploring one, or several, subjects at a deeper level. **Two advisers** partner with you as you do so. Exchange students can take almost any class if they meet the requirements. Class sizes are small and your professor will know your name. Visit our course listings at [www.juniata.edu/jcsa](http://www.juniata.edu/jcsa).
- **Experience the Best of U.S. Culture:** We create many opportunities to ensure that students from abroad experience U.S. culture. Join your international and U.S. friends as you visit historic sites in Washington, D.C., **watch a baseball game**, or enjoy Thanksgiving dinner with a **Friendship Family**. We help integrate international students into the campus community.
- **Intensive English Program:** Juniata provides English as a Second Language (ESL) courses for **credit** and an ESL tutoring program. You'll have the **support you need to succeed in your academic and personal goals**.
- **Location:** Juniata is located in the **safe, town of Huntingdon, Pennsylvania**, a quiet and powerful place, where you'll have an authentic U.S. experience in a friendly, active community. It's located on a train route that connects students with **nearby cities**. We are three hours from Philadelphia, Pittsburgh, Washington, D.C., and Baltimore. New York City and Boston are easily reached by train. **Juniata frequently provides transportation to the local airport at key times**. On campus, there's plenty to do—**Juniata has more than 100 student clubs**. Students can create their own organizations as well.

## Student Opportunities

**Experience:** Gain hands-on experience using **scientific instrumentation**, through distinctive programs like Language in Motion, and in internships at typical work settings. Traditionally at U.S. universities, only graduate students are permitted to use advanced equipment. At Juniata, you can **gain experience in lab research as an undergraduate** in many fields. Not interested in science? Exhibit your art in Juniata's Museum of Art. Present social science, humanities, or business papers at the College's **Liberal Arts Symposium** held each April.

**Campus Community:** Juniata students are fun, smart, and focused. Among our **beloved campus traditions**, several celebrate our global community. Juniata's clubs and organizations range from **athletics**, like rugby and frisbee, and **advocacy clubs**, like Colleges Against Cancer, to **discipline-specific groups**, like Chemistry Club and Art Alliance. Several **internationally themed clubs exist at Juniata**, including Japanese Club, Spanish Club, and International Cooking Club.

**Friendship Families:** At Juniata, you'll stay in a residence hall, but you have the option to also have a host family. Juniata arranges friendship families for international students who want to **establish a bond with an American family**. Friendship families may provide meals at their home, trips to nearby activities, and the expected home-away-from-home relationship.

**Housing:** Almost all students at Juniata live in residence halls. These buildings contain double-occupancy rooms (which you'll share with a roommate of your gender) that feature beds, dressers, and plug-ins for small refrigerators, microwaves, and computers. Dorms also feature shared bathrooms. (For food, you can purchase a meal plan and use it to eat in Juniata's dining hall or several cafés throughout campus where coffee, sandwiches, and salads are served.)

## How does Juniata support students from around the world?

Juniata's Center for International Education will support you even before your journey begins. From **acquiring your visa and arranging transportation from the airport or train station** assisting you in your transition to life at college in the U.S.

## Ask Us About

### Partner Degree Opportunities

Attend Juniata courses for one year. When you graduate from your home university, you will receive a Juniata degree! Does your school participate?

### Global Village Community Living

Live in one of four language-based villages: Chinese, French, German, and Spanish. Live with an American student who wants to learn your language. Live in the Intercultural Community and learn about the world together.

### Language in Motion

Create a presentation where you talk about your culture to local students. Earn academic credit, and teach a child about your world.

### Cultural Opportunities

Sing with the Choral Union or play your instrument in the Orchestra. Share your music, dance, or poetry in the Multi-Cultural Storyfest in the spring.

### Friendship Families

Get matched with a local family who will provide support and encouragement.
