Exam Period II	March – April September - October

Language of Instruction

- ❖ German and English.
- ❖ In general, the language of instruction is German. Most study programmes offered at Ulm University are German-taught programmes. However, there may be selected courses taught in English even in German study programmes. In addition, there is a growing number of Master programmes taught in English.
- ❖ Medicine and Dentistry are strictly taught in German (including exams or clinical electives).
- ❖ Students wishing to do a project or thesis in any of the other subject areas do not need to prove proficiency in German, as long as they have sufficient command of English.

Language Requirements

- ❖ We expect students to have at least level B2 in the language of instruction / working language at the time of application.
- ❖ To prove that they have sufficient command in the respective language(s), students must submit a Certificate of Language Proficiency with their application (template available for download in the online application).
- ❖ If students wish to take classes in both English and German, both languages must be certified.
- ❖ Students who have only level B1 in German at the time of application may be accepted under the condition that they participate in the Intensive German Language Course prior to the beginning of their studies (September/March).
- ❖ Medical students must prove that they have min. level B2 in German at the time of application.

Master Level Courses

- ❖ Students should have successfully completed at least 3 years of study (approx. 180 ECTS) in the field of study of the agreement.
- ❖ Exceptions may be granted to students in their final Bachelor year, if the home university confirms that they offer this mobility window explicitly for students to take Master courses.
- ❖ All students must meet the linguistic and academic requirements of any given course.

Courses from other Departments or Faculties

- ❖ Students are expected to choose the majority of their courses and/or credits in that department which is the sponsor of the inter-institutional agreement.
- ❖ They may choose up to two courses per semester from study programmes in other departments/faculties. Admission to courses in other departments/faculties can be restricted, giving priority to degree students and students coming over a direct agreement with that particular department.
- ❖ In addition, students may take courses from the School of Humanities (language courses, philosophy, soft skills).
- ❖ Courses from career-integrated programmes or the continuing professional education programmes offered by the School of Advanced Professional Studies (SAPS) are not open to Erasmus+ / exchange students.

“Why do you go away? So that you can come back.

So that you can see the place you came from with new eyes and extra colors.

And the people there see you differently, too.

Coming back to where you started is not the same as never leaving.”

Terry Pratchett, A Hat Full of Sky
